REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. The examiner considered the Applicant's Appeal Brief filed on 8-15-2005, and after reconsideration and updated search, the claims are believed to overcome the prior art of record and are deemed allowable.
4. Independent claims 1, 10, 12, and 16 when considered as a whole, are allowable over the prior art of record.
5. With regard to claims 1, 10, 12, and 16, Richards teaches, in column 1, line 60 through column 4, line 48, a system for displaying help information where upon selection of an item from a list relating to one or more tasks, a help text screen is displayed in a separate window. Richards further teaches, in column 3, lines 17-28, column 9, lines 1-10, 11-24, and in figures 9 and 10, a system of keys linking the initial screen (Help Index Table) with the resultant help display (Help Text Table), each key in the initial screen having a corresponding key associated with it in the resultant help display. Richards further teaches, in column 2, lines 14-23, column 3, lines 17-28, column 9, lines 1-10, and in figures 9 and 10, upon selection of a first item a group of keys are used to link it to its corresponding subset of information which is to be provided in it's own panel. Richards further teaches, in column 10, lines 36-52, a branching from Help Text words in to destination text, where selection of such a word with a pointer cause the key to the current help text to be applied with the selected word to a Help Text Branch table, where for each selectable word the Help Text Branch table contains a Destination Key which is the key to Corresponding Help Test in the Help Text Table.

However, Richards doesn't each intermediately keys paired together for the used in the linking of end components, specifically the prior art of record fails to clearly teach or support the limitation of "providing a plurality of key pairs, each of the key pairs comprising a first key and a second key, each of the first keys pointing to one of the name keys and each of the second keys pointing to one of the string keys, such that the name value associated with the pointed-to name key is thus associated with the string value associated with the pointed-to string key".

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
